POSSE ELEVEN	3	4	5	Brk til 12:30	1	2
POSSE TWELVE	4	5	Brk til 11:40	1	2	3

12 Posse - 10 Stage Setup

The 12 Posse - 10 Stage setup will allow us to have smaller posses and gives each posse a break. You may use this time to shop, get something to eat or just rest. All posses must shoot in the order scheduled. A break is indicated by "Brk". The time given is an approximate time for you to be ready to start your next stage. During your breaks, please be aware of the posse ahead of you. They may finish earlier than the approximate time we've indicated and you will be able to start early. If they are taking longer, please do not leave. If you are late getting back to the next stage, your posse will start without you. Twelve posses will be able to finish the stages each day as quickly as 10 larger posses and you get your down time in a larger chunk. We hope this will work out well.

Have Fun - Be Safe
